

**Petition to Respond to Notice of Incomplete Non-Provisional Application
filed under 37 CFR 1.53(b)**

Re: United States Patent Application No. 10/605,207 ('207 Application)

Title: Motorcycle Locking Device

Inventor: Craig Graulich

Filing Date: 09/15/2003

This petition is written in response to a Notice of Incomplete Non-Provisional Application (herein, "The Notice"). Specifically, The Notice states that the '207 Application was missing the specification (including at least one claim), and that the oath or declaration was unsigned (herein, "Missing Parts").

The applicant respectfully requests reinstatement of the '207 Application, a refund of the US \$400 petition fee, and a prompt examination of the application. The evidence for this petition is given below:

- Attached is a copy of the acknowledgement receipt (herein, "The Official Receipt") issued from the USPTO for the electronic filing of the '207 Application;

- The Official Receipt states that the Submission Package was successfully submitted to the USPTO, and that the '207 application should not be resubmitted;
- The Notice mailed on July 18, 2005 was the first official correspondence received from the USPTO with respect to the '207 Application;
- The Notice was the first time that the applicant was made aware that '207 Application was Missing Parts;
- The Applicant was not aware that the application package submitted to the USPTO was incomplete, and that the Missing Parts received by the USPTO was not intentional;
- The Applicant respectfully submits that on September 15th, 2003 ("the filing date") the Submission Package comprising the specification including the disclosure, the claims 1-10, the drawings, and the abstract were included in original submission package. A complete copy of the '207 Application is enclosed with the petition; and

- The Declaration was signed electronically in the original Submission Package. A copy of the signed declaration is enclosed with the petition.
